President Ripley states  
Santa Fe's position  
on eight-hour wage law  
and asks an important  
question

The Atchison, Topeka and Santa Fe Railway Company.

Chicago, Ill., September 8, 1916.

To Santa Fe Employees and the Public:

This is the position of The Atchison, Topeka & Santa Fe Railway Company regarding the controversy with its train-service employees over their demand for increased compensation:

Congress, hastily acting under a threat of four leaders of labor organizations, enacted a so-called eight-hour law, which is nothing more nor less than an advance of twenty to twenty-five per cent in the wages of the best paid men in the railway service.

It is only fair to our employees and the public to say that The Atchison, Topeka & Santa Fe Railway Company does not intend to comply with the law except as and when ordered to do so by the court of last resort.

The merits of the case have been fully explained in the last few months and need no further mention.

Should the courts finally decide that the increase must be paid, there will be an immediate demand from the remaining classes of labor, resulting in entire inability to pay without heavy increases in rates to be paid by the public—especially the farming class.

IS THE PUBLIC PREPARED TO MEET THE DEMAND?  
This notice is for the information of all concerned.
